

**EPISCOPAL CHURCH OF THE SUDAN
DIOCESE OF KAJO KEJI
REVIVAL MOVEMENT CENTRE
SOUTH SUDAN
DATE: 15TH/11/2008.**

SUBJECT: MEMO

Dear your Grace Archbishop we warmly welcome you to Kajo Keji Diocese. ^{Congratulatory} Congregation for your enthronement as the Archbishop of the province of the Episcopal Church of the Sudan.

We have heard from our Lordship the Bishop of Kajo Keji with enthusiasm, the spiritual task God has imparted in you. We also wanted to thank God for having given us such a new spiritual Bishop for Kajo Keji.

Hopefully the Revival Movement is praying that you shall have a co-operate shepherd ship with the Bishop of this Diocese tending, Guiding and providing necessary assistance needed to foster social, spiritual and missionary work with the Revival Movement / Mission for our Country Sudan at large.

PROBLEMS ENCOUNTERED.

1. The Revival movement while in Diaspora / exile where exposed to difficulties, unable to reach out for missions, however with help of the out going Bishop of Kajo Keji among other, we were then introduced to Donors for support to accomplish our Lord and Saviour Jesus Christ Great commission task for Sudan. That is why you can see a few projects at hand yet our task is greater than achieved.
2. The Revival Movement has children ministry through opening of nursery schools of which resources confined us to one nursery school at the moment but our vision and prayer hopefully with your doesn't stop here that is why we need your prayer to help improve our animistic country to faithful Christian country. To mention others, our school lack the following:
 - Support for teaching supports / motivation.
 - Limited structure facilities though we have more kids we are only confined to accommodate 200 at the moment to attend lessons and spiritual teaching.
3. CAWST / Revival Movement:- Centre for affordable water sanitation and technology is a social project working to decontaminate water, since in our survey water has been proven in research to be carrying 80% of our human body infections, therefore, our focus to reach the whole Sudan with water filtering and sanitation program through water filtering technology.

Today your Grace Archbishop we are very extremely happy and joy for your presence among us. May God bless your work for Sudan as a Province.

God bless.
